

Investment Strategy

The Ostrica EU Investment Grade Corp Fund predominantly invests in corporate bonds issued by companies from the Eurozone. Ostrica mostly invests in corporate debt that has a public listed equity arm or market traded CDS. We use forward looking models to calculate the probability of default and a fair value spread of the bonds in the universe. ETFs are being used for tactical asset allocation purposes: active duration management, active spread management & active management of liquidity premia.

Asset Allocation

Top 10 Holdings
